

The Family Planning App Mobile Learning for FP

Pathfinder's YUVAA Project (Youth Voices for Agency and Access) works towards increasing demand and uptake of modern contraceptives among young married couples and first-time parents in 10 districts of Bihar and Maharashtra, India. Provision of quality and youth friendly family planning services is the need of hour.

mPari -The Family Planning App is a digital innovation, a comprehensive e-learning space for all the service providers including doctors, nurses, ANMs and FP counsellors .

Say Hello to.....

Why Mobile Tech?

Need for Self Learning Applications like mPari FP App

Low-resource settings with scarce in-service training opportunities require innovative approaches that adapt technology to context, to improve the knowledge and skills of healthcare providers.

Mobile based curriculum is complementary to the classroom trainings and help with re-enforcements and continuous capacity building

High smartphone mobile user presence among healthcare providers in India

Sustainable and Cost effective self e-learning to help providers access the knowledge resource at their own pace

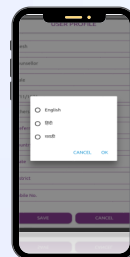

Constant tool available offline for paper free digitised trainings and refreshers
